Welcome to AGSRECYCLING2026

Dear colleagues

The Annual Global Summit on Recycling and Sustainable Waste Management, taking place from September 23-25 in Prague, Czech Republic, invites visionaries and changemakers to deliver into the future of waste sustainability. This gathering offers an extraordinary opportunity to explore forward-thinking solutions for waste minimization, innovative recycling technologies, and transformative environmental practices that go beyond the status quo.

With a focus on practical, scalable strategies, the summit will host a series of thought-provoking dialogues, interactive sessions, and collaborative workshops. Experts will share groundbreaking research and demonstrate how circular economies can reshape industries and communities. Key discussions will also highlight the synergy between policy innovation, corporate accountability, and grassroots movements to drive meaningful environmental impact.

Held in the picturesque city of Prague, this summit serves as a catalyst for global collaboration, inspiring new partnerships and cross-sector alliances to tackle the urgent waste management challenges of our time, while championing a sustainable, circular future for all.

Best Regards
Vivid Global Summits
